

Bonding cycle:	40ms/wire
Accuracy:	$\pm 3\mu\text{m}$
BPO:	$\geq 35\mu\text{m}$
Maximum lead frame width:	83mm

Wire Bonder ROCKET LED

Wire Bonder ROCKET LED is a high-speed automatic wire bonder developed by Guangdong Guangdong ADA Semiconductor Equipment Ltd. It uses thermal ultrasonic ball welding and wedge welding processes to conduct wire bonding on semiconductor devices by heating, pressurization and ultrasonic energy.

Material

Suitable for all kinds of materials: 2835, 5050, 2121RGB, 1515RGB, 1010RGB, 020, Filament, etc.

Performance

1.Fast, UPH 40k (2 wire 2835 with Q loop), UPH 16K (5 wire RGB 1515 with Q loop).
